

Dear Customer:

Thank you for considering **VACUETTE**[®] Blood Collection Tubes. Greiner Bio-One Technical Services can assist in the tube verification process by completing the statistical analysis using EP Evaluator[®] and providing you with the final report for your files.

As prospective customers consider **VACUETTE**[®] Blood Collection Tubes, we are often asked for data specific to the instrumentation in use. As such, your data may be used to support these requests. However, please be assured that any identifying information will be removed prior to sharing data.

In the event that you do NOT want your data used for this purpose, please sign this form and return to your Greiner Bio-One Account Manager indicating that you do not authorize release of the statistical results. If this form is not returned, your consent is implied.

Thank you for considering **VACUETTE**[®] Blood Collection Tubes.
